

Technology Meets Tradition

NEW BARNWOOD™ Exterior Barnwood Siding includes a 100% VOC free coating applied to the front, back and edges of each panel and trim board providing a water-resistant barrier and allowing for the natural aging process comparable to traditional reclaimed barnwood.

Why choose NEW BARNWOOD™ over traditional old reclaimed barnwood ?	
Authenticity	Looks as authentic as old reclaimed barnwood.
Ease of Install	Consistent sizes and tolerances; installs in half the time of old reclaimed wood.
Quality	New material, modern made unlike old reclaimed wood.
Long Lengths	16' 1" lengths for less seams and quicker installs
Utility Trims	Matching square edge boards, casing and trim to complete finish details.
Protection	100% VOC free water-resistant coating applied to all surfaces.
Safety	Free of toxins and bugs that could potentially cause harm to the building & occupants.

Exterior Barnwood Cladding is a made to order product. Please allow 5-7 weeks for delivery to your jobsite.
