

New Barnwood® Interior Barnwood combines the dimensional consistency and stability of newly milled lumber with the rustic, weatherworn qualities of authentic reclaimed barnwood. When viewed up close, the depth of grain and natural variations of the wood mean that the character of each plank is unique. Yet, from wall to wall and room to room there is an overall consistency of color and texture that cannot be easily or economically achieved with reclaimed wood. New Barnwood® products are made with the highest quality raw materials, woods and finishes sourced in the USA.

8" Circle Sawn Barnwood	
<b>Profile</b>	Tongue and Groove
